<p>An aggregate of 31 project applications were received, in total for 22,000,000 EUR up to now. The Council of the State Environmental Fund will decide on the allocation of these financial resources in mid-September. It is anticipated that a large part of received project applications will be approved. The deadline for project applications is currently on 15 November 2021, but an extension of the deadline of this already launched call is considered. Regarding the announced preparation of other projects, the reception of more project applications is therefore expected.</p> <p>The support will be paid to final beneficiaries only after the completion of project realization.</p>	

5. State Aid (Article 6(7)(c) and Annex I, point 1.8 of the IR) – ONLY in case of changes related to State aid aspects (see 4.5)

5.1. Does the investment involve granting State aid? (in the meaning of Article 107(1) of the Treaty on the Functioning of the European Union)

Yes ☒

No ☐

If Yes, please provide evidence as applicable:

- a) the Commission decision of non-objection on the national aid measure;
- b) reference under which the block-exempted measure has been registered (State aid number attributed by the Commission's electronic notification system referred to in Article 11 of Regulation (EU) No 651/2014) (GBER) or in case of new measure, the expected date of transmission of summary information on the measure as per. Article 11 of GBER.

Please specify total eligible costs as well as the aid intensities and any other relevant condition, based on the State aid decision/applicable GBER provisions.

Please confirm that the total amount requested from the Modernisation Fund and other Union and national instruments (total State aid) does not exceed the amount and percentage allowed by the State aid decision/GBER.

The reference registration number under which the block-exempted measure is registered in the Commission's electronic notification system is: **SA.63670**.

The scheme complies with the GBER and Article 41 thereof. Only projects that meet the conditions of the GBER and do not exceed the limit for individual notification will be supported from the scheme. Over-GBER-threshold projects will be submitted and notified individually, outside of this scheme.

Article 41 - Investment support for renewable energy sources

<i>Enterprise / support (%)</i>	Prague	Other regions
<i>Large</i>	45	60
<i>Medium</i>	55	70
<i>Small</i>	65	80

State aid intensities above are effective for the duration of the existing state aid rules; in case of relevant legislative rules update (GBER rules in particular) the scheme will be updated in accordance with all EU and national requirements.

The total amount requested from the Modernisation Fund and other Union and national instruments (total State aid) does not exceed the amount and percentage allowed by the State aid decision/GBER.

Among the rules for selection of projects for support and the aid intensity for each individual project, safeguards are implemented to ensure that the Modernisation fund maximum co-financing rate does not exceed:

- 50 % of total costs,
- GBER aid intensity.

The maximum amount of support in the projects within this scheme (i.e., the threshold for individual notification) is EUR 15 million.

5.2. If No, please attach a statement evidencing that support for the investment proposal does not constitute State aid within the meaning of Article 107(1) of the Treaty. The statement should be signed either by the national authority responsible for the implementation of the Modernisation Fund or by the national competent authority responsible for State aid and should include either a reference to a Commission decision or detailed reasoning why the support does not constitute State aid.
