Introduction

This document contains specific instructions on the use of the Digital Waste Shipment System (DIWASS). In order to properly explain how certain operations work, this document often refers to the EU legislation concerning shipments of waste, to illustrate how certain requirements are reflected in DIWASS. This document does not intend to contain any interpretation of these laws.

Abbreviations used in the document:

Abbreviation	Meaning
CA	Competent Authority
DIWASS	Digital Waste Shipment System
WSR	Waste Shipment Regulation: Regulation (EU) 2024/1157 of the European Parliament and of the Council of 11 April 2024 on shipments of waste, amending Regulations (EU) No 1257/2013 and (EU) 2020/1056 and repealing Regulation (EC) No 1013/2006, <i>OJ L</i> , 2024/1157, 30.4.2024, <i>ELI</i> : http://data.europa.eu/eli/reg/2024/1157/oj
DIWASS Implementing Act	Commission Implementing Regulation (EU) 2025/1290 of 2 July 2025 laying down rules for the application of Regulation (EU) 2024/1157 of the European Parliament and of the Council as regards the requirements necessary for the interoperability between the central system for the electronic submission and exchange of information and documents related to shipments of waste and other systems or software, as well as other technical and organisational requirements necessary for the practical implementation of such electronic submission and exchange of information and documents, <i>OJ L</i> , 2025/1290, 14.7.2025, <i>ELI</i> : http://data.europa.eu/eli/reg_impl/2025/1290/oj

Table 1. Statuses of Annex VII document in DIWASS

Status	When does the status start?	When does the status end?	Basic consequences of the status
DRAFT	Person who arranges the shipment saves a draft	Person who arranges the shipment submits the Annex VII document	Only Person who arranges the shipment and waste producers listed in the Annex VII document can see the Annex VII document Person who arranges the shipment can update the Annex VII document until it is submitted¹
CANCELLED	Person who arranges the shipment clicks on "cancel Annex VII document". This action will be possible when Annex VII document has statuses: draft or announced	Not applicable	- No one can change anything in the Annex VII document - Annex VII documents that were cancelled cannot be "uncancelled"
ANNOUNCED	Person who arranges the shipment clicks on Announce	The person who arranges the shipment cancels the Annex VII document, transitioning to "Cancelled". A competent authority initiates a take-back, transitioning to "Take-Back". The first carrier transfer certificate is created, transitioning to "Moving". The first reception certificate is created, transitioning to "Received".	When an Annex VII document is in "Announced" status, it is visible to: - The person who arranges the shipment - Waste producers, carriers, consignee, and waste treatment facility specified in the document. - All competent authorities of the countries concerned by the waste shipment - All EU authorities involved in inspections Carrier, consignee and facility (laboratory) can start providing their contributions to the Annex VII document. CA can submit take back request. No further edits to the document are allowed by the person who arranges the shipment, except for the following information, which may be submitted or updated at the latest before the start of the shipment: -actual quantity of the waste - carrier or carriers involved - container identification number.

Okomentoal(a): [AT1]: or cancels the Annex VII document

¹ If the update was done after the waste producer authenticated the draft notification, the waste producer will need to authenticate it again in order to allow the notifier to submit it.

Status	When does the status start?	When does the status end?	Basic consequences of the status
MOVING	The first carrier transfer certificate is created.	The status ends when either the first reception certificate is created, transitioning to "Received", or when a competent authority initiates a take-back, transitioning to "Take-Back".	The person who arranges the shipment can no longer update the movement document. CA can submit take back request. The selected operators (carrier, consignee and facility) can contribute to the Annex VII document by filing in their respective boxes.
RECEIVED	The reception certificate is created.	The status ends when the completion certificate is created, transitioning to "Completed", or when a competent authority initiates a take-back, transitioning to "Take-Back"	The person who arranges the shipment can no longer update the movement document. CA can submit take back request. The selected operators (carrier, consignee and facility) can contribute to the Annex VII document by filing in their respective boxes.
COMPLETED	The completion certificate is created.	Not applicable	No actions concerning Annex VII document can be performed. CA can submit take back request.

Chapter 1 How to submit Annex VII documents

General note

This chapter provides instructions on submitting Annex VII documents in DIWASS. Annex VII documents are used in the context of the general information requirements procedure that applies for the shipment of so called “green listed waste”.

In order to be able to create Annex VII documents in DIWASS, the following three conditions must be satisfied:

- The operator that will act as a person who arranges the shipment is registered in DIWASS,
- The user is authorised to represent the operator that will act as Person Who Arranges the Shipment in DIWASS,
- All operators that are involved in the shipment are registered in DIWASS.

Please note that the user acting in DIWASS is always representing a given operator, and that this operator acts in a certain role in the context of shipments of waste. The role in a given general information requirements procedure is established through the selection of the operator in one of the fields of the Annex VII document (e.g. person who arranges the shipment, carrier, consignee, etc).

Example: user Anna Smith represents the company Waste Management S.A. that is registered as an operator, and that in the context of a given Annex VII document acts as a person who arranges the shipment.

To improve the readability of the instructions below, instead of using the formula “user representing the operator that in the context of given shipment acts as [...]”, references are to the simpler form “the user”.

Please also note that, for cases where waste is imported into the EU and the third country operator acting as the person who arranges the shipment does not actively use DIWASS, the Annex VII document will be introduced to DIWASS by an EU consignee or EU facility. The EU operator can do this from their own user account and DIWASS will keep records of the fact the submission is done on behalf of another operator.

Specific instructions

1. After logging in into DIWASS ([TRACES NT](#)), the user needs to select in the tab “Documents” the “DIWASS Shipments of green-listed waste (Annex VII)”.

2. The screen with a list of Annex VII documents, where the operator that user represents is involved, will be displayed. To create a new Annex VII document, the user should select the button “Create”.

3. An Annex VII document wizard will be opened, and the user will be asked to select the person who arranges the shipment. To do this, please select the operator from the operators that you are authorised to represent in DIWASS, that you will prepare the Annex VII document for. This selection needs to be made also in cases where the user is authorised to represent only one operator in DIWASS. The selection should be done by selecting a name of respective operator from the drop-down list.

Confirm the selection by clicking “Next”.

Select the person who arranges the shipment

- The user needs to indicate the involved countries from the drop-down lists provided. To add transit countries, the user needs to first click on “+ **Add Transit**”. In case an Annex VII document involves more than one transit country, please list them in the correct order by using arrows next to the names of CAs of transit.

Confirm the selection by clicking “**Next**”.

Please note that that DIWASS will not block the possibility to submit an Annex VII document starting from country A if the person who arranges the shipment does not have a registered office in country B.

However, many Member States require that the person who arranges the shipment must have a registered office in their country in order to submit an Annex VII document starting from that country. Therefore in such cases the person who arranges the shipments is advised to check if the Member State selected as country of dispatch requires the person who arranges the shipment to have a registered office in their territory before submitting Annex VII.

The screen will now display a summary of the data provided so far, and the user will be asked to confirm the selections made by clicking “**Confirm**”. Based on this data, the template of the Annex VII document will be created, and the remaining elements of Annex VII document can then be filled in in the next steps.

Please note that, after the Annex VII document is created, it will not be possible to change the elements concerning the person who arranges the shipment and involved countries. When changes are needed on those elements, a new draft Annex VII document needs to be created. It is possible – before “clicking “Confirm”– to return to previous screens by clicking “Previous”.

When the button “Cancel” is clicked here, the process of drafting the Annex VII document will end.

The draft Annex VII document will be visible only for the person who arranges the shipment, as well as for the waste producers as indicated after completing box 6 of the draft Annex VII document. The system generates a unique Annex VII document number when the draft is saved for the first time. The user does not need to enter this number manually.

The instructions below follow the order of the boxes as defined in the Waste Shipment Regulation. However, users may complete these boxes in any order they prefer.

- The information provided earlier will automatically fill **Box 1. “Person who arranges the shipment,”**. The user must indicate whether the person arranging the shipment is also the original waste producer, waste collector or new waste producer by clicking **“Yes”** or **“No”**,

as appropriate. If the user clicks **“Yes”**, DIWASS will not require the producer’s data to be provided additionally. If the user clicks **“No”**, the original waste producer, waste collector or new waste producer must be indicated in **Box 6 of the Annex VII document “Waste Producer”**.

The screenshot displays two side-by-side form panels in a web application. The left panel, titled '1. Select the person who arranges the shipment', contains the following fields: 'Name' (WASTE BE Test Producer), 'Country' ((BE) Belgium), 'eori' (BE88992233), 'Address' (Postal Code: 2030, City: Antwerpen, Street: Test Street 67), 'Contact Information' (Contact person name: Test first name, Phone number: 32 73729299, Email address: test@gmail.com, Fax number, Website), and 'Operator's identifiers' (EORI: BE88992233). At the bottom, there is a radio button group for 'Arranger is producer' with 'Yes' and 'No' options; the 'Yes' option is selected and highlighted with a green rectangular box. The right panel, titled '2. Importer / Consignee', contains: 'Name', 'Country', 'Identifier', 'Address', 'Contact Information' (Contact person name, Phone number, Email address, Fax number, Website), and 'Operator's identifiers'. An 'Edit' button is located next to the 'Name' field in the right panel. A legend at the bottom left indicates that an asterisk (*) denotes a mandatory field.

7. **Box 2. “Importer – consignee”**. In order to select the consignee, the user needs to click on the field **“Edit”**.

8. Box 3. "Annex VII Document No."

In Box 3, the user should specify whether the Annex VII document being created is linked to another notification document, movement document, or Annex VII document. If yes, the user can indicate this by providing the number of the related document.

The user may indicate the link with notification document, movement document, or Annex VII document where:

- The new Annex VII document seeks to continue shipments of green listed waste that were subject to Annex VII procedure before (i.e. the same type of waste, the same person who arranges the shipment/waste producer(s), the same destination facility, etc.).
- The Annex VII document is created due to a take-back of waste covered by another notification or Annex VII document.

Okomentoal(a): [AT2]: We cannot understand this point

The user should also specify the following:

- Whether the new Annex VII document is created due to take back, and
- Whether it is created in the context of the detection of illegal activities.

The user should also indicate whether the Annex VII document concerns:

- Shipment of waste destined for Laboratory or Recovery facility

3. Annex VII Document No.

GLW.BE260000000097i

This Annex VII document is created:

Annex VII document is related to notification no or movement document no or Annex VII document no:

due to take-back*

due to detection of illegal shipment of waste*

This Annex VII document concerns shipment of waste:

Destined for*

9. **Box 3a. "Actual quantity"**: The user needs to provide the actual quantity of waste to be shipped under the Annex VII either by indicating the mass of waste, in tonnes, or the volume of waste, in m³. Please click on **"Add"** and select volume or mass.

3a. Actual quantity*

+ Add

Volume

Mass

Then, please indicate the correct value of mass or volume by filling in a free text box:

3a. Actual quantity*

Mass: Value: 2500 Unit: Tonnes (Mg) + Add X

10. **Box 4. Actual date of shipment**: the user needs to click on the calendar icon and select the actual date of shipment.

3a. Actual quantity*

Mass: Value: 2500 Unit: Tonnes (Mg) + Add

4. Actual date of shipment*

01/02/2027

4a. Container identification number, if applicable

container no. 101258

In line with the obligation arising from Article 18(5) of the WSR to submit Annex VII document two working days in advance of the planned shipment, please note that DIWASS will not allow to submit Annex VII document indicating as date of the actual shipment the date on which the Annex VII document is submitted, or the next day. Please also note that DIWASS will allow flexibility to submit information on the actual quantity of the waste, the carrier or carriers and, where applicable, the container identification number, which may be submitted at a later time but at the latest before the start of the shipment.

Okomentoval(a): [AT3]: In the test platform it is possible to announce a shipment for the actual day

11. **Box 4a. Container identification number (if applicable):** the user should provide, in the free text field, the container identification number, if such number exists.

3a. Actual quantity*

Mass: Value: 2500 Unit: Tonnes (Mg) + Add

4. Actual date of shipment*

01/02/2027

4a. Container identification number, if applicable

container no. 101258

12. **Box 5. "Intended carrier(s)":** In order to add carriers, the user needs to click "+ Add".

16. **Box 8. “Disposal / Recovery operations”:** The user needs to select the code of waste treatment operation(s), by clicking “+ Add” and selecting the relevant operations. the available operation codes are determined by the selection made under the subelement “This Annex VII concerns: Destined for” within **Box 3** (“Annex VII Document No.”). If the user

selects **"Recovery"**, **Box 8** will display only **R-codes** (recovery operations). If the user selects **"Laboratory"**, **Box 8** will display both **R-codes** (recovery) and **D-codes** (disposal).

8. Disposal / Recovery operations

D-code / R-code*

+ Add +

- R1 Use as a fuel (other than in direct incineration) or other means to generate energy (Basel/
- R2 Solvent reclamation/regeneration
- R3 Recycling/reclamation of organic substances which are not used as solvents
- R4 Recycling/reclamation of metals and metals compounds
- R5 Recycling/reclamation of other inorganic materials
- R6 Regeneration of acid or bases
- R7 Recovery of components used for pollution abatement
- R8 Recovery of components from catalysts
- R9 Used oil re-refining or other reuses of previously used oil
- R10 Land treatment resulting in benefit to agriculture or ecological improvement
- R11 Uses of residual materials obtained from any of the operations numbered R1-R10
- R12 Exchange of wastes for submission to any of the operations numbered R1-R11
- R13 Accumulation of material intended for any operation in this list

9.

Please note that the selection of codes of waste treatment operations and description of technologies should concern only the waste treatment facility indicated in box 7 of the Annex VII document, not the subsequent facilities indicated.

Note: In line with *footnote 4 of Annex VII to the Waste Shipment Regulation*, in the case of **R12/R13** operations, the user must also attach corresponding information on the facility where the **interim recovery** or **non-interim recovery** directly following the initial interim recovery is envisaged, as well as, where practicable, the facilities where subsequent **interim or non-interim recovery** operations are envisaged.

17. **Box 9. "Usual description of the waste"**: The user should provide the **usual description of the waste** by filling out the free text box:

9. Usual description of the waste*

18. **Box 10. "Waste identification"**: in this box, the user should identify the waste to be shipped with this Annex VII document

To facilitate the selection of relevant waste codes, DIWASS incorporates the list of codes, so that the user can select them from the drop-down menu. DIWASS provides also a separate selection for "Main Waste Identification" and "Other Waste Identification".

The **"Main Waste Identification"** features:

- Basel Annex IX (Basel B),
- OECD,
- EU list of waste,
- National code in country of export,
- National code in country of import,
- Other,
- UN class,
- UN Number,
- UN Shipping name.

The user needs to click on “+ Add Main Identification” to select the type of waste identification list. The user should select the respective list by clicking on it. The user may select one or more waste identification lists. If more than one waste code is present, click “+ Add Main Identification” the needed number of times.

10a. Waste identification*

Main Waste Identification

+ Add Main Identification ▼

Other Waste Identification

Basel B
OECD
Eu list of waste
National code in the country of export
National code in the country of import
UN class
UN Number
UN Shipping name

Once the type(s) of waste identification code are selected, the user can select the specific type of waste by clicking “+ Waste code”.

The drop-down list is available for the following waste codes: Basel, OECD, EU list of waste, and UN class.

19. **Adding attachments:** To add attachments, the user needs to click “+ Add attachment”.

Attachment type	File	Comment	Attachment contains personal data	Date	Action
Number of attachments					

In the pop-out window, the user should select the attachment type by selecting one of the attachment labels from the drop-down list.

The user will be able to add a file upon clicking on the grey field “**Select file**”.

The user will be asked to indicate, if the attachment contains personal data. To confirm adding of attachment to the draft Annex VII document, the user needs to click on “**Add**”.

Add attachment

Attachment type: Other Annex Date: 25/08/2026

Contains personal data: ☐ Yes ☒ No

Comment:

* Mandatory

Please note that in the attachments will be visible for: all CAs and all operators selected for a given Annex VII document, except for carriers.

Carriers will be granted access only to the attachments with the following labels:

- Decision,
- Handling Requirements,
- Intended Route and Alternative Route,
- Composition of waste,

It is therefore important for the person who arranges the shipment to correctly indicate the label describing the content of the attached document. Carriers will get such access as soon as the Annex VII document is submitted.

Okomentoal(a): [AT4]: There is no Decision in Annex VII shipments. What decision is this?

20. When the user has provided all the required information, it may authenticate the Annex VII document before submission. This authentication process in DIWASS is an equivalent of signing the documents.

The authentication needs to be performed by the person who arranges the shipment, as well as all the waste producers listed in box 6 of the Annex VII document.

Waste producers should note that they will only have permission to **view and authenticate** the Annex VII document and will **not** be able to make any edits. It is essential that producers authenticate the **final version** of the document. If the person arranging the shipment makes any changes to the draft **after** the producer has already authenticated it, the producer will be required to **re-authenticate** the updated draft to ensure the document remains valid.

In order to authenticate the Annex VII document, the person who arranges the shipment needs to click on the button “Authenticate” at the bottom of the screen.

The screenshot displays the DIWASS interface for a draft document. At the top, the document ID 'GLW.BE260000000097i' and the role 'EXPORTER - WASTE BE Test Producer' are shown, along with a 'DRAFT' status button. A 'NOTIFICATION' bar is present. The main form is divided into two sections: '1. Select the person who arranges the shipment' and '2. Importer / Consignee'. Section 1 includes fields for Name (WASTE BE Test Producer), Country (Belgium), eori (BE88992233), Address (Postal Code: 2030, City: Antwerpen, Street: Test Street 67), and Contact Information (Contact person name: Test first name). Section 2 includes fields for Name (DE facility test operator), Country (Germany), Identifier, Address (Postal Code: 40213, City: Cologne, Street: aaaa), and Contact Information (Contact person name). At the bottom, there are buttons for 'Close', 'Authenticate' (highlighted with a green box), 'Save', 'Submit', and 'Cancel'.

In the pop-out window, the user should indicate what is the role they perform in the organisation of the operator (e.g. proxy, member of the board, president etc.). Then, the user should click on “**Confirm**”.

Authentication details

Name	Test USER Fourteen
Date	25/08/2026
E-mail of the person authenticating the submission	env-testuser14@ec-traces.eu
Role of the person authenticating the submission on behalf of the operator in its organisation *	employee

Confirm **Cancel**

The information on which operators authenticated the Annex VII document and when will be displayed in box 12 of the Annex VII document.

12. Declaration of the person who arranges the shipment and the waste producer(s)

I certify that the above information is complete and correct to my best knowledge. I also certify that effective written contractual obligations have been entered into with the consignee and if applicable the facility operator and that any agreement by the competent authorities of dispatch and destination has been provided in accordance with Article 4(5) of Waste Shipment Regulation.

No	Role	Operator's name	Name of the person authenticating the submission	Authentication date	Additional string
1	EXPORTER	WASTE BE Test Producer	Test USER Fourteen	02/09/2026 - 17:40:34 CEST	

21. When all the required authentications are performed, the user will be able to submit the Annex VII document by clicking on button “**Submit**” on the right bottom corner of the page.

Attachments

Attachment type	File	Comment	Date	Attachment contains personal data
+ Add attachment				

Close **Save** **Submit** **Cancel**

Please note that, as soon as the Annex VII document is submitted:

- The user can no longer edit the Annex VII document, except for the following information, which may be submitted or updated at the latest before the start of the shipment:
 - actual quantity of the waste
 - carrier or carriers involved

- container identification number.

- The Annex VII document is automatically visible to CAs in the countries indicated by the person who arranges the shipment and the carriers, consignee, and waste treatment facility selected in the document.

22. After the document is submitted, the Annex VII document changes its status to “Announced” and the summary view of the Annex VII document appears:

GLW.RO260000000086i CONSIGNEE - WASTE BE Test Producer **ANNOUNCED**

Chapter 2 How to review Annex VII document

General note

This chapter provides general instructions on reviewing the Annex VII document by operators. Please note that:

- The person who arranges the shipment and waste producers listed in the Annex VII document can see the Annex VII document as soon as draft Annex VII document is saved in DIWASS.
- Consignees and facilities listed in the Annex VII document, as well as carriers and CAs, will see the Annex VII document as soon as it is submitted.

Specific instructions

1. Following the login, the user needs to select the fields “**Documents**” and the “**DIWASS Annex VII document procedure**”.

2. Then, the user will see a list of all Annex VII documents that were announced in DIWASS, in which the operator it represents is involved. The user needs to select the Annex VII document, which the user intends to review.

3. Following the selection of a given Annex VII document, the user should scroll down to see all its content.

Chapter 3 How a waste producer should authenticate an Annex VII document

General note

This chapter provides general instructions on how a waste producer should authenticate the Annex VII document. Please note that:

- Authentication process in DIWASS is an equivalent of signing the documents.
- In order to submit an Annex VII document, it needs to be authenticated by all the waste producers listed in box 6 of the Annex VII document.
- In case the person who arranges the shipment changes anything in the Annex VII document after it was authenticated by the waste producer, the waste producer needs to re-authenticate any changes made in the Annex VII document, as DIWASS removes the former authentication of the waste producer.

DIWASS requires this re-authentication, to ensure that the waste producer is aware and agrees to the shipment of waste and its treatment as described in the final draft of the Annex VII document.

Waste producers should note that they will only have permission to **view and authenticate** the Annex VII document and will **not** be able to make any edits. It is essential that producers authenticate the **final version** of the document. If the person arranging the shipment makes any changes to the draft **after** the producer has already authenticated it, the producer will be required to **re-authenticate** the updated draft to ensure the document remains valid.

Specific instructions

1. Following the login and selecting the relevant Annex VII document from the list of all Annex VII documents involving the operator, the user should review the Annex VII document. Following that, the user should click “**Authenticate**” at the bottom of the screen.

The screenshot displays a web interface for authenticating an Annex VII document. It is divided into two main sections:

- 1. Select the person who arranges the shipment:** This section contains fields for Name (WASTE BE Test Producer), Country (Belgium), eori (BE88992233), and Address.
- 2. Importer / Consignee:** This section contains fields for Name (DE facility test operator), Country (Germany), Identifier, and Address. An 'Edit' button is located next to the Name field.

At the bottom of the interface, there is a row of buttons: 'Close', 'Authenticate' (highlighted with a green border), 'Save', 'Submit', and 'Cancel'.

2. In the pop-out window, the user should indicate what is the role they perform in the organisation of the operator (e.g. proxy, member of the board, president etc.). Then the user should click on “**Confirm**”.

Authentication details

Name	Test USER Fourteen
Date	25/08/2026 
E-mail of the person authenticating the submission	env-testuser14@ec-traces.eu
Role of the person authenticating the submission on behalf of the operator in its organisation *	employee

The information on which operators authenticated the Annex VII document and when will be displayed in box 12 of the Annex VII document.

12. Declaration of the person who arranges the shipment and the waste producer(s)

I certify that the above information is complete and correct to my best knowledge. I also certify that effective written contractual obligations have been entered into with the consignee and if applicable the facility operator and that any agreement by the competent authorities of dispatch and destination has been provided in accordance with Article 4(5) of Waste Shipment Regulation.

No	Role	Operator's name	Name of the person authenticating the submission	Authentication date	Additional string
1					
2	PRODUCER	WASTE BE Test Producer	Test USER Fourteen	02/09/2026 - 17:46:05 CEST	

[Please note that the Commission's IT team is working on the development of this feature]
By clicking “**Print**” in the bottom right corner, the user can see and download a pdf version of the Annex VII document.

Chapter 9 Contribution of carrier to Annex VII documents

General note

This chapter provides general instructions on how a **carrier** can contribute to the Annex VII document.

Please note that:

- Carriers(s) are indicated in **Box 5** of the Annex VII document by the person who arranges the shipment);
- Such carrier(s) will be able to see and contribute to the Annex VII document once it has been **announced by the person who arranges the shipment**;
- The carrier's contribution takes the form of a **carrier transfer confirmation**, confirming the take-over of the waste and providing transport details;
- When more than one carrier is involved in a shipment, each carrier submits its own transfer confirmation. DIWASS lists each carrier and its confirmation on a separate line, so each handover can be tracked individually;
- Submitting the first carrier transfer confirmation changes the status of the Annex VII document from **"Announced"** to **"Moving"**;

Specific instructions

Confirming the transfer of waste

1. Following the login and selecting the relevant Annex VII document from the list of documents involving the operator, the carrier should scroll down to **Box 5** and select the option to create Carrier transfer confirmation.

5. Transport carrier(s)							
#	Name	EORI	E-mail	Address	Country	Means of transport	Actions
	WASTE FR Test Carrier 1	FR0909	test@gmail.com	Paris	 (FR)	R	

2. Next, a pop-out window will open. The user needs to provide information on:
 - The date of the transfer of waste – by clicking on the calendar icon and selecting relevant date;
 - Means of transport used by the carrier – by selecting it from the drop-down list.

Carrier transfer confirmation

Date of transfer: 31/08/2026

Means of transport: Road

[en] waste section title attachment: + Add

Next Cancel

- The user may also add an attachment by clicking on “+ Add attachment”. A file selection field will appear, where the user can select the document type from the drop-down list and select the file to upload.

Carrier transfer confirmation

Date of transfer: 31/08/2026

Means of transport: Road

[en] waste section title attachment: + Add

File: [Dropdown] Select File [Upload Icon]

Next Cancel

- When all information is provided, the user needs to click on “Next”.
- Then, the user will be asked to authenticate the information provided. This authentication process in DIWASS is an equivalent of signing the documents. In the pop-out window, the user should indicate what is the role they perform in the organisation of the operator (e.g. proxy, member of the board, president etc.). Then, the user should click on “Confirm”.

Chapter 10 Contribution of consignee to Annex VII documents

General note

This chapter provides general instructions on how a **consignee** can contribute to an Annex VII document. Please note that:

- The consignee is indicated in **Box 2 "Importer – consignee"** of the Annex VII document by the person who arranges the shipment;
- Such consignee will be able to see and contribute to the Annex VII document once it has been authenticated by the person who arranges the shipment;

- The consignee's contribution takes the form of a **consignee reception confirmation**, confirming the receipt of the waste which is later displayed in box 13 of the Annex VII document;

Specific instructions

Confirming the receipt of waste

1. Following the login and selecting the relevant **Annex VII document** from the list of documents involving the operator, the consignee should locate **Box 13 “Shipment received by importer – consignee”** and click on “Create consignee reception confirmation”.

Chapter 11 Contribution of waste receiving facility to Annex VII documents

General note

This chapter provides general instructions on how a **waste receiving facility** can contribute to an Annex VII document. Please note that:

- The waste receiving facility will be able to see the Annex VII document only after the person who arranges the shipment submits (announces) it in DIWASS.
- The waste receiving facility will be able to contribute to the Annex VII documents when the document will be in one of the following statuses: “Announced”, “Moving” and “Received”.

Specific instructions

Confirming the receipt of waste

1. Following the login and selecting the relevant Annex VII document from the list of all Annex VII document documents involving the operator, the user should scroll down to the box 7“Recovery Facility / Laboratory”. The waste receiving facility needs to click on “**Create reception certificate**”.

7. Recovery facility / Laboratory						
No	Name	EORI	E-mail	Address	Country	Actions
	WASTE DE Tets Facility 1	DE35251	test123@gmail.com	Hagenwerder	 (DE)	Create reception certificate Create completion certificate + Create

2. In the next window, the user needs to provide information on
 - The date of the receipt of waste – by clicking on the **calendar icon** and selecting the relevant date;
 - Accepted quantity of waste – by clicking on icon “**+ Add**”, selecting the unit of measure and filling in a free text field;
 - Please note that in the future DIWASS may restrict the choice only to the unit of measure indicated in the Annex VII document.
 - Rejected quantity of waste – by clicking on icon “**+ Add**”, selecting the unit of measure and filling in a free text field;
 - Please make sure to enter “zero” if no waste was rejected.
 - Please note that in the future DIWASS may restrict the choice only to the unit of measure indicated in the Annex VII document.
 - Reasons for rejection – by completing the free text field;
 - Please make sure to enter “not applicable” in case no waste was rejected.

STEP 1 - PLEASE SPECIFY WHETHER YOU WOULD LIKE TO PROVIDE:

STEP 2

Certificate details

Facility reception certificate

Facility reception date: *

24/08/2026

Accepted quantity of waste *

Role of the person authenticating the submission on behalf of the operator in its organisation *: employee

Previous Confirm Cancel

- Following that step, DIWASS will again display the dashboard summarising details of the Annex VII document.

To verify its contribution to the Annex VII document, the user needs to scroll down to display box 7 of the Annex VII document. There, below the details of the waste receiving facility, DIWASS will display the confirmation submitted by this facility. The information will be displayed when clicking on the arrow on the left side of the box.

7. Recovery facility / Laboratory						
No	Name	EORI	E-mail	Address	Country	Actions
	DE facility test operator	DE123345555		Cologne	DE
